ALL CREWS ARE SHAPING UP

MYRTLE FRESHMEN BEAT THEIR SENIOR CREW

Healani Crews Shaping Up Well and Will Do or Die on Saturday—No More Broken Oars.

Both the Myrtles and Healani are putting in their last licks at strenuous training, and with only three afternoons left for work, the crews are nearly wound up to the highest notch. The Healani were out in force yesterday afternoon, and the seniors and freshmen did some good work. The seniors hit up a good, solid pace for a mile or so and then, being warmed up properly, did a couple of sprints that made their boat move through the water in great style.

Harold Dillingham was coaching the freshmen and he got the crew going in fine form. Dillingham knows all about the game, and his advice was of great value to the oarsmen. It would seem to be a pity that Harold is not rowing in some of the races this year.

The freshmen are doing remarkably well just now, and the way they are shaping up gives the followers of the Healani club much joy. On Saturday the Healani rowers will show everybody that they are much better than was thought, and the pace they will set their opponents from the start to finish will be something to talk about for some time to come.

The Healani seniors were in charge of Paul Jarrett, and he put them through their paces over the course. The crew put up fast time, and when the Myrtle bunch rowed them on Saturday they will know there has been something in the way of rowing when the race ends.

Yesterday afternoon the Myrtle seniors and freshmen had a go over the course together, and at the turning buoy the boats were about level. Then, much to everybody's surprise, the freshmen came along like a motor boat and beat the seniors in by half a dozen lengths.

The Outrigger Club canoe, in charge of Kenneth Brown, did some fine paddling work, and the way the boys put the big craft through the water promises well for their chances against the Hawaiian crews that will oppose them on Saturday next. The Kona crew is a good one, too, and the contest between them and the haoles should be a beauty.

Charlie Chillingworth and Frank Thompson are getting along all right, and what with long hikes and hard rowing, the pair are looking as fit as possible. Prince Cupid and Alec Robertson have many supporters who think that the two must win from Chillingworth and Thompson. That remains to be seen, and on Saturday there will be a buzz of excitement when the well-known men

step into their boats and row up to the starting line.

The regatta will be the real thing, and a fine day's sport is being looked forward to by everybody.

BOY SCOUT MEETING THIS AFTERNOON

Start Will Be Made for Nucleus of Honolulu Army.

This afternoon the Boy Scout movement will be launched, and a meeting will be held at the Y. M. C. A. Paul Super has been named as chairman, and he has nominated as a committee D. Howard Hitchcock, Ed. Towse, T. K. Biddle and A. H. Donaghy.

The Boy Scouts is not a religious denomination—that is, it is not controlled by any denomination—and the fact that the meetings will be held at the Y. M. C. A. is merely a matter of convenience.

The men who are on the committee are all experienced in lines of work that will enable them to start the Scouts off in the way they should go. The personal interest that the men will take in the organization promises well for the success of the movement to establish the Boy Scouts in Honolulu.

At present two patrols are ready in Maunaloa Valley, and a fine lot of youngsters have enrolled in the ranks. Then in Punahou there is another patrol, and yet one more on the Ewa side of the city. The Chinese boys of the Heretania Mission are also getting into line, and the local Y. M. C. A. will likewise establish a patrol.

With good leaders, the Honolulu Scouts should compare favorably with other Scouts on the mainland and elsewhere. The idea is an excellent one, and once more Hawaii proves to be on the map as regards being up to date.

CHICAGO VARSITY PLAYERS IN JAPAN

Team Might Possibly Return Via Hawaii and Play Here.

Now that the Chicago Varsity baseball team is on its way to Japan it would be a good thing for some of the promoters to try and arrange that the mainlanders come back via Honolulu and play some games here. The team went by the northern route from Seattle to Yokohama, direct, and unless their plans are changed, they intend to return the same way.

Still as a trip is to be made to Manila, it might be possible to arrange matters so that the Varsity men go home via this port. The thought of being able to see some good ball played again in good and something should be done in the matter.

The Waseda learned some good wrinkles while in Hawaii and they will surprise the Chicago cracks when they go up against them. The Kelo Varsity team will also have a tussle with the Americans and the result of the games will be awaited with interest here.

The English polo team that is at present in America won its first victory on August 25, when the New Haven team went down in defeat to the visitors by a score of 9 to 3.1.2. The score was close enough for anything, and looks up something like the tallies of the Hawaiian games.

N. S. W. LADS ARE GOING WELL

MANY SPECTATORS WATCH BOYS WORK

Companies Come From All Parts to Join In Parade—Greatest Interest In Scouts Shown By Everyone.

In view of the fact that this afternoon the first meeting in connection with the Boy Scouts will be held, the following description of some of the work done in Australia by the lads will be read with interest. The Scouts have been established for some time in the Antipodes, and from the very start the organization has been a great success.

The Boy Scouts of New South Wales had a great field day on August 29 at Centennial Park, Sydney, before about 10,000 spectators. The scouts of the metropolitan section presented a unique program, illustrative of the work they had become proficient in during the year. The park became a center of pioneering activity. Nearly two thousand miniature pioneers reproduced back-block activities for the benefit of the citizens. Here and there miniature were built in record time. Then white tents were erected, and as quickly disappeared. In the foreground a watch-tower or lookout was run up; also an Indian tepee took shape, while the watchers wondered what it was, and a bridge was built. But it was not all rural. A fine drill display was given by the Tenth troop, a wireless telegraphic receiving station was prepared, first aid was given, litters were improvised and utilized, and a bicycle ambulance carried "wounded" scouts to camp. There was also heliograph signaling, flag-wagging, and jingling. In addition to the city and suburban scouts a good number of country boys arrived from the west as far as Lithgow, south as far as Campbelltown, Illawarra as far as Wollongong, and north as far as Newcastle. These assembled at the railway station, and with flags flying and the bugle band playing lively airs, marched out to Centennial Park. Then the whole "army" formed up in review order on the parade ground, with the flag party in front of the pavilion. Amongst those in the pavilion were her Excellency Lady Dudley, his Excellency the Governor, Lord Chelmsford, his Excellency the Admiral, Sir Richard Poore, his Grace the Archbishop. In front of the pavilion a 15-stone scoutmaster was "wounded." His troop (Watson's Bay) dashed forward, and rendered first aid, improvised a litter out of staves and a blanket, and worked like a host of Lilliputians round a modern Gulliver. Then they bore their heavy burden off in triumph. When the round of inspection had been completed, and the different depart-

ments of scout-craft had been illustrated, the scouts formed up, and marched past the saluting base, at which stood the governor and the admiral.

DOTS AND DASHES.

W. A. Larned, the wonderful tennis player, has once more given a taste of his quality, and by beating T. C. Bundy of Los Angeles, on August 26 at Newport, R. I., he won his sixth championship title. R. D. Sears, who was the first American champion, is the only other man who ever owned two national championship trophies.

It was half expected that Dick Cullen would be on board the Marana, which arrived from Australia yesterday, but the lightweight did not show up. He is doing well in the Antipodes, and although defeated several times, he has made a host of friends.

Ed. Lewis will be the first aviator in Hawaii if all goes well with him. He is determined to bring back an aeroplane from the Coast and will give exhibitions in Honolulu.

Eddie Fernandez, the well-known baseball player, has secured the nomination for the House of Representatives, and there is no doubt that he will poll well.

NEWS NOTES FROM KAMEHAMEHA SCHOOLS

The Kamehameha Schools opened on Monday with an enrollment of 325 students, 96 of whom were for the school for girls, 62 for the preparatory and 170 boys for the manual school.

Most of the new students are from the other islands. The manual school opens well this year in the military drill, as most of the cadet officers are present to start the work in that line. There have been few changes in the battalion officers.

The school expects to have a strong athletic team this year. Most of the members of last year's teams are returning.

E. Noah, W. Apau and J. Milikan, star players of the baseball team, arrived yesterday from the other islands.

Many new teachers have been added to the faculty this year. Professor Charles G. Collins comes to superintend the shops. He has had seven years' experience in this line at the Colorado college, Colorado Springs, Colo. He has just arrived from Colorado college, where he has been superintendent of the mechanical laboratory, engineering department. Miss D. K. Fairchild will take charge of geography, and Miss E. J. Little will teach English and nature study.

At the school for girls, four new teachers have arrived, all from the States.

Many students have been turned away from the school on account of lack of room. At present the record has been broken for the number of pupils enrolled at the manual school.

Many improvements have been made at the school during the summer vacation. A new concrete pump house has been built in the rear of the shops, and the pumps are now being installed.

The students are very much pleased at the way the campus has been kept. Mr. Partridge is the new assistant of the agriculture department, and Mr. L. P. George will arrive Friday to take up the duties of machinist.

The manual school is overflowed with students just now, and many still have been turned away on account of lack of room.

Major Robert Mahioa will be at the head of the battalion this year. He is the youngest officer the school ever had to hold such a high position. With the help of his fellow officers he can accomplish a great deal for the school this year.

Joseph Kaui, the star catcher of last year's baseball team, will be missed very much this year.

The new athletic field is in good shape now, and grass will soon be planted. The ground has settled down a great deal now.

President Horne of the Kamehameha Schools is kept very busy just now with the pupils coming in. The number being increased this year means a good boost for the schools. Mr. Horne is well pleased with the results.

COMING EVENTS.

Secretaries and managers of athletic clubs are invited to send in the dates of any events which they may be getting up, for inclusion under the above head. Address all communications to the Sporting Editor, Bulletin.

Oahu Juniors.
Sept. 18—Asahia vs. Palamas.
Sept. 18—Mu Hocks vs. Asahis.
Oct. 23—Four Ball, Foursome, H. G. C. Moanalua.
Sept. 17—Match.
Sept. 17—Tennis.
Sept. 17—O. H. Cup.
Sept. 17—Rowing.
Sept. 17—Annual Regatta.
